

Missouri National Archery in the Schools State Tournament

March 22-24, 2019
Branson Convention Center

Help Kids Take Aim Like Never Before

The Missouri National Archery in the Schools Program (MoNASP) is a school-based archery sports program, sponsored by the Missouri Department of Conservation (MDC). Students learn the skill of target archery beginning at the local level with the goal of qualifying for the state, national, and possibly, the world tournament both individually and as teams.

MoNASP, an affiliate of the National Archery in the Schools Program (NASP), promotes education, self-esteem, and physical activity for students in Missouri. The program is available to students in grades 4-12. Nearly every student – regardless of age, size, or physical ability – can succeed at archery. It's a great team-building experience promoting skills and friendships that last a lifetime.

Since NASP began in 2002, over ten million students have participated. Since 2008, MoNASP has grown to over 670 participating schools and more than 185,000 Missouri students. The MoNASP State Tournament, held in Branson, Mo., is now the second largest state archery event in the nation. In 2018, there were over 3,132 archers competing at the tournament with over 10,000 spectators. Scan this QR code to see highlights from the 2018 tournament.

The Missouri Conservation Heritage Foundation (MCHF) is proud to partner with MDC to oversee the 11th annual 2019 MoNASP State Tournament at the Branson Convention Center March 22-24. We expect a record 3,700 competitors and anticipate more than 15,000 spectators to attend the tournament. We invite you to join us as a sponsor when MoNASP students take aim during this remarkable event.
