

Missouri National Archery in the Schools State Tournament

March 17-19, 2022
Branson Convention Center
Branson, MO

Help Kids Take Aim Like Never Before

The Missouri National Archery in the Schools Program (MoNASP) is a school-based archery sports program, sponsored by the Missouri Department of Conservation (MDC). Students learn the skill of target archery beginning at the local level with the goal of qualifying for the state, national, and possibly, the world tournament both individually and as teams.

MoNASP, an affiliate of the National Archery in the Schools Program (NASP), promotes education, self-esteem, and physical activity for students in Missouri. The program is available to students in grades 4-12. Nearly every student – regardless of age, size, or physical ability – can succeed at archery. It's a great team-building experience promoting skills and friendships that last a lifetime.

Since NASP began in 2002, over ten million students have participated. Since 2008, MoNASP has grown to more than 750 participating schools and more than 200,000 Missouri students. The MoNASP State Tournament is now the second largest state archery event in the nation. In 2021, there were over 3,500 archers competing at the tournament with over 10,000 spectators. Scan this QR code or go to <https://youtu.be/yoFprGNYqqY> to see highlights from the 2021 tournament.

The Missouri Conservation Heritage Foundation (MCHF) is proud to partner with MDC to oversee the 14th annual 2022 MoNASP State Tournament at the Branson Convention Center March 17-19 in Branson, Mo. We expect 4,000 competitors and anticipate more than 12,000 spectators to attend the tournament. We invite you to join us as a sponsor when MoNASP students take aim during this remarkable event.
